STUDY IN THE UK

The UK has an international reputation for the quality of its education system. Four of the top ten universities on the planet are in the UK (QS World University Rankings).

The UK is also a great place in which to live: its history, lively cultural life, varied cuisine, excellent transport links, famous music events and international sporting championships offer endless opportunities for enrichment and entertainment.

Studying in the UK also means becoming fluent in English, your passport to an international career.

With Abbey DLD, you can study to gain entry to some of the best universities in the world, improve your English and make the best start to your career. Many hundreds of international students join Abbey DLD every year to study and to succeed.

Join us on an exciting journey in which we will support you, challenge you and encourage you to realise your personal and professional ambitions.

STUDY WITH US

The Abbey Advantage

Since 1931, Abbey DLD has been synonymous with high quality education, strong university destinations and enriching experiences. As an Abbey DLD student, you will leave college equipped with the skills and grades you need to progress in your career, having made friends and discoveries to remember for a life time. Get the Abbey Advantage.

PROGRESS TO TOP RANKED UNIVERSITIES

Strong exam results and top University offers year after year.

FIVE STAR URBAN BOARDING AND PREMIUM FACILITIES

The perfect environment to live, study, make friends and enjoy extra-curricular activities from tennis to tai chi.

SPECIALISED SERVICE FOR INTERNATIONAL STUDENTS

Beyond education, our service includes practical help with VISAs, social programmes to help you make friends and 24/7 care through House Parents and on site Nurses.

DELIVERING “GOLD STANDARD” EDUCATION SINCE 1931

Part of the Alpha Plus Group, our Colleges are bound by the Gold Standard education vision of the Group.

OUR STUDENTS

Juan Fernandez Pottecher - A Level, Upper Sixth, Chemistry A*, Mathematics A*, Further Mathematics A* and Physics A* Natural Sciences at the University of Cambridge

"I had an immense amount of support from all my teachers, who were always there to answer the random questions I would fire at them. They have been amazing at giving me books of all sorts and other documents to fulfil my growing desire to learn chemistry.

They also ran masterclass sessions in which they dedicated to teach me as well as an eager group of students problem solving strategies. After Abbey Cambridge I plan to study at Oxbridge, and I definitely know now that I want to study chemistry at university and hopefully well beyond."

Maryam Afolabi - International Foundation Programme, Business and Economics Pathway University of Manchester

"I came to Abbey College Manchester because I wanted to give myself the best education possible. I had heard good things about the college, which turned out to be true. The teachers were great and were patient with me. The location was also ideal as it is right in the centre of the city.

The college had a mix of students from all over the world as well as lots from Manchester itself. The college is quite small and so you feel part of a community where people want to help each other. My year at the college has given me great memories. While I am delighted to be going to a fantastic university, I will miss it a lot."

Abdelrahman Mohamed - International Foundation Programme - Medicine Pathway Aston University

"Although I was a little nervous at the start I need not have worried - everyone was so friendly and welcoming. The learning resources and equipment in the college were good. The teachers made the classes enjoyable and they were very interactive. Having very small class sizes too helped my confidence and my communication skills. I got really good help when preparing my university application and did well in my examinations and managed to get to the university and onto the degree course I really wanted. The experience at the college was one I will never forget and hopefully there will be more students from Egypt that will come and study in Manchester in the future."

Cho Zin Lin - A Level, Upper Sixth, Biology A, Chemistry A, Mathematics A* and Physics A Medicine at the University of Glasgow

"Lessons at Abbey Cambridge have really helped me to understand my subjects more thoroughly, and there are lots of opportunities to do practicals and use equipment. Teachers give one-to-one feedback after each stage test, which really helped to guide my studies.

The Pre-Degree Diploma was an eye-opener, I was helped to find work experience and volunteering opportunities, which gave me a really useful insight into life as a doctor, and it also came in handy when I wrote my personal statement."

Yeye Chen

Computing at Imperial College London

Yeye joined DLD from China in January 2018 for the intensive 18 month A level programme. He quickly established himself as an excellent, independent and mature learner. He was an extremely able mathematician and enjoyed gaining a deep understanding of new concepts. He clearly loved Mathematics and revelled in its challenges. After only six months of study he obtained an impressive A in Maths A level. In Physics he was thoughtful and diligent in his approach and was never satisfied until he fully understood a topic. He asked pertinent questions that benefited everyone in the class and he often contributed perceptive comments.*

Outside of his studies, Yeye tutored Maths to his peers. He was also a valuable asset to the basketball team. He was a well-liked member of the College and the boarding community.

Yeye achieved excellent results. He thoroughly deserves his place to study Computing at Imperial College London where we are sure he will thrive.

Edward Pak Yung Mak

Biology at the University of Oxford

"Teachers here are committed, many went out of their way to conduct mock interviews, which really helped with my university application. They were also willing to explain difficult concepts after class to make sure I understood.

The Pre-Degree Diploma encouraged me to read books, so I could demonstrate my understanding of topics outside the syllabus. I would not have known which books to read otherwise. Cambridge is quiet yet city-like, and it's been great to live with people who you can study and have fun with."

Dayana Chumburidze

Economics at Tufts University, Massachusetts

"Dayana joined DLD College in September 2016 to follow the intensive one year GCSE programme. Her excellent results led to her being awarded an Alpha Scholarship to study A levels, and she continued to excel, contributing to every aspect of College life with her academic rigour, intellectual curiosity, investment in cultural life. The charitable work that we undertake to support local charities such as the Evelina Childrens' Hospital. Dayana was appointed as joint Head of Year in the Student Council; she advocated for student interests with great insight, integrity and enthusiasm, and she spoke at the Graduation Ceremony at the Houses of Parliament in June 2019.

In addition to her tireless commitment to her academic studies, Dayana's interest in Economics meant that she attended many super curricular lectures, and travelled to Hamburg to research cryptocurrency for her Extended Project. Dayana attended the prestigious Harvard Summer School to study Micro- and Macroeconomics; she found her time in Massachusetts inspirational and is delighted to be spending the next few years continuing to study there as an undergraduate.

Dayana represents the best qualities of DLD College and we wish her very well for all of her future successes; we know that she will continue to be a friend of the College and a superb ambassador for our academic and ethical values.

"Studying at DLD is about independence and adulthood. Here I understood the importance of self-management. Even my parents were surprised by how much I have grown up during my time here. DLD gives students an opportunity to be whoever you want to be, to express yourself in the way you wish and this is the most important aspect of my academic and social life."

“

Passionate, Driven, Ambitious.

Three words that sum up Abbey College Cambridge perfectly. We have a passion to provide a first class British education with a global outlook. We are driven to give the best teaching and support to all students, including those for whom English is not their first language. And we are ambitious for our students, helping them to achieve exceptional academic and personal success.

As Cambridge's Outstanding International College, we are experts in teaching and in supporting both UK and international students, and we do so in a community that is energised by the love of learning. It is a place where students feel at home, where they make friends from all over the world, share unforgettable experiences and go on to achieve amazing things together. Our exam results illustrate this, with the A Level A - A pass rate being above 60% for each of the past eleven years, compared to an average of around 25% in other UK schools.*

Our students are driven by a desire to attend one of the UK's best universities. That desire, coupled with the excellent academic progress they make, results in over one third of our A Level students progressing to one of the UK's top five universities every year. If you join us you will study with students who will progress to Oxford or Cambridge University, Imperial College, LSE and UCL. That is simply a fact of life at Abbey Cambridge. If you feel that you wish to study with such passionate, driven and ambitious students, and to be one yourself, then Abbey Cambridge may be just what you are looking for.

ACCOMMODATION

We offer a wide range of accommodation for students in our college boarding houses. You also have the option of living with local host families.

In our boarding houses we offer you a choice of single or twin ensuite bedrooms. All rooms are offered on a full board basis and standard features include WiFi, secure access, live in house parents, weekly linen and towel change, communal social and study areas, CCTV and on-site security, room cleaning and on-site laundry, secure bicycle storage and weekend and evening activities. Ofsted has awarded our boarding facilities its highest ranking of 'Outstanding'.

Our host families provide an opportunity to experience local family life whilst studying. Meals are provided by your host (with lunch taken in college during term time) and a range of different homes are available.

All of our host families are located within the city of Cambridge, are fully DBS police checked, and personally vetted by our Head of Accommodation.

“

A unique alternative to traditional school life.

At our new London campus, we offer a unique alternative to traditional school life, maintaining a strong academic ethos as we prepare our students for University. Teaching and learning is rigorous and challenging, whilst being creative and responsive to the individual needs of students. Students can choose from a wide range of academic courses, and in addition can get involved in any of our numerous sports, arts and charitable extra-curricular activities. What makes us special though is our committed teachers, who are passionate about their subjects and seek to inspire their students to enjoy learning and acquisition of knowledge and guide them to exam success. This is an incredibly exciting time for everyone connected with the College and represents a significant step forward for DLD College London. We're immensely proud that our boarding College rubs shoulders with some of the most prestigious and historical buildings in London. The position in the heart of the city is exceptional. We hope you will join us on our journey.

ACCOMMODATION

BOARDING AT DLD

DLD College London is the only on-site boarding school in London.

Boarders enjoy the convenience of living in one of our 250 en-suite bedrooms above the College. Boarders are split into different groups, called 'Huddles'.

A 'Huddle' is a group of boarders organised by age, gender and floor, overseen by a designated Houseparent. Huddles have regular meetings for notices, so that boarders can share their opinions, discuss upcoming events and make new friends!

Single rooms come in different varieties – Bronze, Silver, Gold and Platinum. These are priced by size, but due to the interesting shape of our building's architecture, every room is unique.

Room features:

- » Single bed
- » En suite shower room
(shared for twin rooms)
- » Study space
- » Wardrobe
- » Storage
- » Wi-Fi
- » Safe for personal items
- » Waste bin
- » Lamp
- » Weekly room clean
- » Weekly fresh towels
- » Common rooms
- » Bread, fruit and extras provided in kitchen

LIFE AT COLLEGE

DLD GRADUATION AT THE HOUSES OF PARLIAMENT

DLD College honours its Leavers with a Graduation Ceremony, held at the Palace of Westminster in 2018 and 2019.

The ceremony focuses on the wonderful achievements of DLD students from A-Level, BTEC and International Foundation Programme. The students, dressed in gowns, hoods and mortarboards, walk across the Westminster Bridge and over the river Thames to the famous Westminster Hall, taking their seats in the Graduation room. In 2018 and 2019, DLD students were hosted by the Rt Hon Keith Vaz MP who spoke about the importance of making the most of the learning and life opportunities presented. After the ceremony the students, parents, guests and staff make their way back to the College to have family photos taken and to continue celebrating together.

Students and guests also join in the Art department's End of Year Show, showcasing an extensive range of creative work of Photography, Art, Art Foundation and Graphic Design students.

ABBHEY COLLEGE MANCHESTER

A LEVEL GRADE PERCENTAGES 2019

Ms Liz Elam

Principal,
Abbey College Manchester

“

At Abbey College Manchester, our global family attracts students from all over the world. Large numbers of UK students join the college every year enabling us to deliver British education to a global community. Every year, we aim to:

- Guide our students to achieve academic success and fulfil their aspirations.
- Provide a friendly, safe, supportive environment in which students are happy and can grow their confidence in.
- Show a sensitive understanding of the challenges facing young people in the 21st Century by empowering students to make informed decisions and have the determination to achieve their goals.
- Prepare our students for university, their future careers and to make a positive contribution to the community.

We are a growing, dynamic College, situated in the heart of Manchester providing high quality, flexible A Level, International Foundation, Combined Studies and GCSE programmes. Our modern building provides an environment conducive to study and in our small classes each student can develop their individual abilities with all the necessary support from our highly qualified teachers and support staff.

Teaching and learning is rigorous whilst being creative and responsive to individual need. We run extra and twilight lessons to support our students. The 4Rs framework (Routine, Rigour, Responsibility and Resilience) underpin our Success in the Sixth Form programme.

Our enrichment activities include sport, voluntary work, charity events, music, photography, Model United Nations, Mathematics Olympiad and engineering. Staff, students and families get to know each other well and enjoy working together. At Abbey College Manchester we offer a unique alternative to the traditional boarding school whilst maintaining a strong academic ethos. Everyone contributes, everyone is appreciated; our committed teachers love their subjects and seek to support their students.

ACCOMMODATION

International Students at Abbey College Manchester have different accommodation options:

- Riverside House – Student accommodation within easy reach of the College (only available to students aged 16 before 1st September of the year of entry).
- Host family (available to students of all ages).

RIVERSIDE HOUSE

Riverside House Student Accommodation offers high-quality, safe accommodation within a 15 minute walk of ACM, and Manchester city centre. College accommodation occupies an area over the top two floors, with exclusive access for students and staff.

Riverside House offers :

- » 24 hour Security on site, a secure door entry system, and CCTV cameras
- » Cycle storage
- » Laundry facilities
- » Weekly cleaning service

CATERING AT RIVERSIDE HOUSE

The catering offered within Riverside House is very different to that available in most boarding schools.

Our goal is to provide fresh, nutritious meals and a range of healthy snack options to students, whilst preparing them for the independent life they will have once they enter university. Students are on full meal plans at Riverside House, so breakfast, lunch and dinner are offered seven days a week during term time and college holidays (with the exception of Christmas when students go home).

Breakfast

Students prepare their own breakfast and lunch using a variety of food items collected from the House Parent. Bread, croissants, muffins, bagels, cereals, jams, preserves, meats, cheese, pasta, pasta sauces, noodles, rice, pizzas, yoghurts, crisps, eggs, salad, fruit and various condiments are all available to order.

Evening Meal

There are two options for the students to choose from for their evening meal. A freshly prepared meal cooked by our on-site Chef is served between 6.00pm and 7.00pm each day. Or students can opt to cook independently. They will be provided with a budget each week with which to order food from our selected supermarket. Students hand the order form to the House Parents who then order the chosen items. When the delivery arrives, the students take responsibility for putting the food away so they learn to store food correctly. However, the House Parents will visit each flat to ensure food has been stored safely and hygienically, and help the students do this. Students generally like to cook in small groups but they can cook individually if they so wish. The House Parents can provide cooking support sessions and guidance on what, and how, to cook.

HOST FAMILIES

Our Host Families are carefully selected to ensure a friendly, safe, secure environment in which students can study, relax and integrate. All our families are checked by the DBS (CRB) scheme and are also personally vetted by the Director of Accommodation Services.

Most families are within easy reach of the college by bus, train or tram with an average journey time of approximately 30–40 minutes.

Students are encouraged to spend some time with their Host family in the evenings and during weekends. Some hosts may take their students on trips in and around Manchester. All this helps improve English skills and an understanding of British life and culture.

Host families reflect the mix of cultures and people who live in Manchester.

LIFE AT COLLEGE

UNPARALLELED UNIVERSITY PREPARATION

University success starts with excellent guidance. Each of our colleges offers tailored support before and during the application process:

UCAS advice, help with application paperwork, preparation for university entrance tests and specialist help with applications to Oxford, Cambridge, medical and dental schools. We also look beyond university to help you with work experience and career advice.

Abbey Study Skills Programmes

Each College offers a specific programme to help students develop skills that are essential to success in university: critical thinking, independent learning, using and quoting research articles etc.

Our Pre University programmes are:

- Pre-Degree Diploma at Abbey Cambridge,
- Success in the 6th Form at Abbey Manchester,
- DLD Diploma at DLD

Your College tutor will be able to discuss all options available for you.

UNIVERSITY SKILLS MODULE AT ABBEY COLLEGE MANCHESTER

ACM has been working with a leading university on a University Skills Module. This involves students working on a project and then attending a residential at the university to write their reports and present their findings. The aim is to enable students to bridge the gap between sixth form study and university and give them real life experience of working in 'industry'. It is also intended to help the students develop their skills in communication, public speaking, teamwork and research.

NEW

PROGRESS TO THE BEST UNIVERSITIES IN THE UK

Because of the intense competition for places, if you would like to progress to the very top universities, especially Oxford or Cambridge, A Level success alone might not be enough. That is why we offer students extensive support to take additional exams and wider programmes designed to help those aiming for the very highest level.

Olympiads

Participation in national and international Olympiad competitions provide students with the opportunity to further test their mathematical and science skills. Abbey DLD students have won several Gold, Silver and Bronze Awards in these events for their efforts in Mathematics, Chemistry and Physics in recent years.

Advanced Extension Awards (AEA)

We encourage our most gifted and motivated students to work towards the Advanced Extension Award. This is like an A Level in terms of content, but the questions are more challenging. AEAs are a useful additional qualification when applying for the most prestigious universities.

STEP and University Entrance Papers

The most competitive universities increasingly use additional tests to select their students. We therefore offer a programme to teach students individually and in small groups for these examinations, including Thinking Skills Assessment (TSA), Sixth Term Examination Papers (STEP), Bio-Medical Admissions Test (BMAT) and UK Clinical Aptitude Test (UKCAT).

In 2019:

**33 STUDENTS
PROGRESSED
TO A TOP 5 UNIVERSITY**

**45% OF OUR STUDENTS

**46 STUDENTS
PROGRESSED
TO A TOP 30**

SPECIALIST PREPARATION FOR MEDICAL SCHOOL

We are experts in helping you achieve your ambitions of gaining entry to medical programmes.

With our advice and guidance students can:

- Develop a broad and thorough understanding of medical/dental careers
- Review and discuss current medical issues and ethics
- Write an effective personal statement for the chosen faculty
- Select suitable work and voluntary experiences
- Prepare for different types of interview: both traditional or multi-mini interviews
- Liaise with UCAS and gain advice on other medically-related courses and how to use the fifth choice on the UCAS form

MEDICINE IFP:

AT ABBEY MANCHESTER AND ABBEY CAMBRIDGE

Access to medical school is not restricted to A level students alone. Our International Foundation Programme is a pathway to a wide range of medicine courses in UK universities. Our Medicine IFP programme has been recognised by three leading universities with pathway options: Aston University, the University of Central Lancashire (UCLan) and St George's University, Grenada (new in 2019).

ABBAY COLLEGE CAMBRIDGE PRE DEGREE DIPLOMA

In this unique course, students are taught by expert medical tutors and benefit from their extensive experience of preparing successful medical applicants.

The programme focuses on the key components required for successful entry to study medicine: Transferable Skills and Biology.

Transferable Skills includes:

- Introduction to UK medical training and working as a doctor in the UK
- Medical school personal statement workshops
- Basic first aid
- Team building, leadership, and problem solving workshops
- Medical ethics
- Research
- Presentation skills
- Medical school interview practice

Biology includes:

- Introduction to key topics including anatomy, biochemistry, cell biology, genetics, immunology,
- Microbiology, molecular biology, nutrition, pathology, pharmacology and physiology
- Dissections
- Basic clinical skills such as suturing
- Introduction to case based and problem based learning
- Introduction to systems based learning

In addition to taught sessions the programme will include medical school visits, intensive half-term preparation ‘bootcamps’, lectures from medical professionals, workshops and Q&A sessions with former Abbey College Cambridge students who are now working as doctors.

SPECIALIST PREPARATION FOR OXBRIDGE

Admission to Oxbridge is highly competitive, with many more applicants than places available. Making an application to the Universities of Oxford or Cambridge involves a number of additional stages compared to applications for other UK institutions. At Abbey DLD Group of Colleges we offer our students a specialist Oxbridge preparation programme for those students hoping to secure a place at one of these two prestigious universities. Drawing on our extensive experience of the Oxbridge application system, the programme covers key areas such as application, entrance examinations, developing super-curricular experience, additional qualifications, and admissions interviews.

Our Oxbridge programmes are designed to deliver practical knowledge and to develop the key skills that will enable you to stand out from the crowd.

What will be covered?

- Choosing between Oxford and Cambridge
- College and course selection
- Support and guidance e.g. on wider reading
- Oxbridge admissions interview: content and technique
- A talk on personal statements for Oxford and Cambridge applications
- Support in completing additional forms e.g. the Supplementary Application Questionnaire (SAQ)
- Academic preparation focused toward the extended Oxbridge application requirements
- Super-Curricular activities
- College visits
- Application workshops with Oxbridge admissions tutors (DLD College London and Abbey College Cambridge)
- Mock admissions interview practice
- A series of final preparation sessions in the weeks prior to interviews
- Q&A sessions with current Oxbridge students (Abbey College Cambridge)

OUR PROGRAMMES

Breadth and choice. The Abbey DLD way.

At Abbey DLD, we offer a wide range of courses to help students access their future at UK and global universities. We cater for students aged 13 and older, offering GSCE specialists, A Level, IFP and Academic English programmes.

Because we are specialist in educating international students, we teach English both as a standalone subject and integrating it into the main academic subjects, through a unique approach called CLIL (Content and Language Integrated Learning).

For a summary of the courses available at each college, see our Course Matrix and Entry Requirements table on page 58 and 61.

A LEVELS

A Levels are our most popular courses. International Students will typically study three or four A Levels over two years and will be assessed by a series of exams.

Abbey DLD colleges offer over 30 subjects, from Maths and Sciences, to Business and Economics and to Arts, Music and Drama to IT. Our strength lies in our flexibility to offer many subject combinations. We will make a timetable to suit your needs and career aspirations.

One year A Level programme (September start)

The one year A Level programme is suitable for a minority of students who have already taken their A Levels before, but wish to retake to improve their grades to gain access to competitive degree courses. Students wishing to undertake the one year A Level programme should contact the college to discuss subject options available.

18 month A Level (January start)

The 18 month A Level is ideal if our September enrolment is not convenient for you. As with the two year option, the 18 month A Level course involves three or four subjects. The content is identical, therefore this program is faster paced than studying it over 2 years and requires a higher English entry requirement.

Two year A Level programme (September start)

This is our standard programme. The two year A Level course follows the traditional UK pattern of three or four subjects, usually studied from the age of 16 or 17. You may choose any subjects you wish, allowing for timetabling and your standard of English. If entry to a UK university is your ultimate aim, we will help you choose the most appropriate A Levels for your preferred university/degree.

Three year A Level programme (September start)

The first year of this programme focuses on more intensive English instruction alongside usually one A Level subject. The full A Level will then start in the second year. Students wishing to undertake the three year programme should contact the college to discuss their eligibility.

INTERNATIONAL FOUNDATION PROGRAMME

Foundation programs are specifically designed for international students as an alternative to A levels and are accepted by over 90 universities in the UK.

These programs act as a bridge between an international education and a UK university, providing academic teaching, extra support and English language, especially tailored to international students.

IFP courses include Core Skills and Pathway-specific modules. Core Skill modules are Academic English, Mathematics, Information Technology and Presentation and Research Skills. These must be completed by all IFP students.

Pathway-specific modules offered by Abbey DLD Colleges are:

MEDICINE IFP AT ABBEY COLLEGE CAMBRIDGE AND ABBEY COLLEGE MANCHESTER

Launched in 2015, Abbey DLD IFP in Medicine is a fantastic route for international students who have done one year of level 3 study or looking for an alternative to the second year of A Level. Already, the programme has been recognised by two leading universities with pathway options: Aston University* and the University of Central Lancashire (UCLan).**

* IFP students achieving a score of 75% overall with 70% + in Chemistry and Biology and who have 7.5 IELTS are fast-tracked through the Aston medical school application process.

** ACM and ACC's Medicine IFP been recognised as meeting the academic requirements for application to the UCLan MBBS (Medicine) Programme.

Admissions Requirements

To study the International Foundation Programme students should have obtained or expect to obtain a qualification accepted by a university in their home country and a minimum level of English equivalent to IELTS 5.0. Students must also be minimum aged 17 years old or older.

Every year, Abbey DLD Foundation students go on to study a variety of degrees at well-known universities. See page 70 for our 2019 IFP destination highlights.

ONE-YEAR GCSE PROGRAMME

The GCSE qualification is taught intensively over one year, and is excellent preparation and training for success at A Level and beyond.

Designed for students who can cope with the fast pace of this course, our programme focuses on a selection of traditional subjects limited to 6 in order to meet the more demanding standards of the new GCSE. This programme provides students with a full timetable starting at 8.50am in the morning and finishing at 4.40pm and 4.30pm for ACM (except on Wednesdays when they finish at 4pm). ACC School day starts at 9am and finishes at 4.30pm.

Apart from the required Maths and English at GCSE, students may select up to four other subjects. The tutors at Abbey DLD Colleges are engaged specialists in their subjects, ensuring that students are motivated to achieve to the utmost of their ability. GCSE students are encouraged to ask questions of their tutors and to become active learners. Tutors engage each student, understanding individual needs. Small class sizes allow for a friendly atmosphere, as well as ensuring academic rigour.

“The GCSE qualification is taught intensively over one year, and is excellent preparation and training for success at A Level and beyond.”

18 MONTH AND TWO-YEAR GCSE PROGRAMMES

The 18 month and two year GCSE programmes are designed for students whose first language is not English.

Our programme focuses on a selection of traditional subjects limited to 8 in order to meet the more demanding standards of the new GCSE. This programme provides students with a full timetable starting at 8.50am in the morning and finishing at 4.40pm and 4.30pm for

ACM (except on Wednesdays when they finish at 4pm). ACC School day starts at 9am and finishes at 4.30pm. The curriculum includes about 11 hours per week of Academic English tuition, 4 hours per week of tuition for options A to D, and 3 hours 30 minutes of Mathematics.

Sample Timetable

Block	Maths	English	A	B	C	D

Subject	Maths	Academic English	Biology	Physics	Chemistry	Economics
		English Language	History	Biology	Geography	Art
		English Lang & Lit				

PSHE	1 period
Tutor Period	1 period
Sport	3 periods

ACADEMIC ENGLISH & PRE-SESSIONAL PROGRAMMES

PRE-SESSIONAL PROGRAMMES

Abbey DLD Colleges offer Pre-sessional programmes that can precede all other courses offered by the colleges. A pre-sessional course prepares a student for a main course of study in the UK. The contents will include subjects such as: Academic English, a weekly enrichment activity/trip, Drama, Art & Design, Maths, PSHE, exam practice and a Research Project module.

This course has two main objectives:

1. To help students improve their level of English to enable them to study at GCSE, A Level, BTEC or IFP (International Foundation Programme).
2. To equip students with the basic study skills needed to thrive in the UK educational system.

The course is designed for students with an Intermediate (B1) English ability, with additional provision for those who fall slightly into the beginner category (A1 level). It is not, however, suitable for Beginners (A1 and below), as students should be able to make sufficient improvement to progress to their main course.

A pre-sessional course can be taken before any academic programme offered at Abbey DLD and should last one year, although variations can be possible depending on student needs.

Progress on this course is assessed using the Cambridge English Scale (CES) and the Common European Framework of Reference. It is assessed using three different assessments; the Key English Test (KET), the Preliminary English Test (PET), and the International English Language Testing System (IELTS), depending on the student's starting level and targets.

ACADEMIC ENGLISH AS A SUBJECT STUDIED ALONGSIDE A MAIN COURSE

Academic English is the educational foundation for any international student. English is the language for teaching, learning and living in the UK at Abbey DLD Colleges.

We believe that language is best learnt by effectively integrating English teaching into a topic or project based approach to learning because this allows the quicker development of the full range of language skills – reading, writing, speaking and listening. Our philosophy is that “everyone is a teacher of English” – so whatever academic subjects you are studying, the teachers will be helping and supporting you to understand the language of your subject. This scientific approach to language learning is known as CLIL – ‘Content and Language Integrated Learning’.

HOW WILL MY ENGLISH PROGRESS AND HOW WILL I BE TESTED?

The large majority of UK Universities require a student to achieve a minimum of 6.5 in the IELTS exam (International English Language Testing System), although Universities such as Oxford, Cambridge, LSE, Imperial and UCL often ask for 7.0 / 7.5.

Every Abbey DLD student enrolled on an academic programme – A Levels, International Foundation Programme or GCSEs – will be provided with free English tuition, and this will be compulsory until the student achieves a minimum level of 6.5 (IELTS 7 for ACC). This is because the IELTS examination is just as important as the examinations for the academic programme.

Other independent examinations include:

FCE:	First Certificate in English
PET:	Preliminary English Test
KET:	Key English Test

ACADEMIC STUDIES WITH FOOTBALL TRAINING

Abbey College Manchester runs a successful course aimed at boys and girls aged 15 and over who have a passion for football. This programme offers the chance to study GCSEs, A Levels or the International Foundation Programme whilst having football training on weekday afternoons.

This new programme is a unique opportunity for students to gain qualifications for entry to university alongside intensive football training which could lead to playing professional or semi-professional football in the future. Football training is added to students' timetables without impacting on the core study requirements to gain their qualification.

What are the Academic Course options?

Students will be able to choose from the following educational pathways depending on prior attainment and level of English if not from the UK:

GCSEs (1 year)

Most subjects can be taken with this option

A Levels (2 or 3 years)

- Biology, Chemistry and Mathematics
- Business Studies, Economics and Mathematics

International Foundation Programme (1 or 2 years)

- Business Pathway (Business, Economics)
- Science Pathway (Biology and Chemistry)

These pathways will equip students to apply to a wide range of universities to pursue Science or Business related courses which could link to their sporting aspirations, or they could apply for courses unrelated to sport. The subject combinations and qualifications offered allow students great flexibility as they move forward. Students will be taught in small classes (a maximum of 12 in each) and follow the routine and rigour of all Abbey College Manchester programmes.

One or two term Programmes

Students who wish to only access a course for a shorter period of time should contact the college to find out what subject options are available.

What is the daily routine?

Students will have academic classes each weekday from 9.00am until 12.40pm at the Abbey College Manchester campus on their chosen academic programme.

Two hour football training sessions will be delivered each afternoon by professional and experienced coaches.

Students will have the option to undertake fitness programmes during the late afternoon or alternatively will be able to attend study/booster classes in the college.

SHORT TERM BOARDING

British Boarding School Experience

Spend a term studying the British curriculum and improving your English whilst boarding in the heart of one of the UK's most exciting cities.

Why study with us?

- Improve your written and spoken English
- Live and study in one of three beautiful, historic and vibrant British cities
- Study the globally recognised and admired British curriculum
- High quality accommodation and pastoral support included
- Study and live with ambitious students from around the world the fifth choice on the UCAS form

Whilst you study you will become a full member of our diverse student community, with access to our exciting extra-curricular programme of weekly clubs, sports and activities, evening lectures, and university study preparation sessions.

Upon completion of your studies, you will receive a comprehensive academic report and completion certificate to take home. If you enjoy your time here, you can also choose to join the full GCSE or A Level course and complete your university studies in the UK or at home.

Please note that there are limited places on these courses available.

Course Overview

You will be joining students from around the world studying on our established GCSE (14–16 years) and A Level (16–18 years) programmes. Your weekly study programme will be a combination of academic subjects and English language lessons.

Full board accommodation will be included in one of our college boarding houses.

Please note that Scholarships are not available for these programmes.

Entry Requirements

- Age: 14+
- Academic Requirements: School Report and Interview
- English Level: IELTS 4.5+
- Locations Available: Cambridge, London & Manchester
- Start Dates: September

WHAT TO EXPECT WHEN YOU CHOOSE ABBEY DLD

Our service to international students extends beyond education. We look after our students from before they leave home for the UK to the day they leave for university – and after that.

ENROLMENT

After you have completed your enrolment, we provide you with everything you need to prepare for your new life in the UK. Our Pre Arrival information pack contains everything you need to know before joining us:

- Key contacts
- Term dates and timetables
- We send a pre-course reading list and preparation programme. Our Accommodation team will send a list of what items they (you/the student) need to bring to the UK.

ON ARRIVAL

- We offer an airport pick-up service
- We show you around your new College and city
- We help you open a bank account, register with a doctor and work out your public transport choices
- We help you with applying for your visa and registering with the police
- You will meet the house parents and staff members who live within your accommodation

COLLEGE INDUCTION

A warm welcome

Our students attend a programme over a number of days in the week before lessons begin to tour the College, meet key staff members, formally enrol and receive their timetables.

Meet your personal tutor

You will meet your personal tutor weekly. He or she will monitor your academic progress and attendance, as well as deal with any welfare issues.

Attendance

We monitor attendance through registration at the start of every lesson. We are totally focused on ensuring you have a responsive, supportive environment in which to learn.

Keeping you informed

We supply parents with regular reports on areas such as general achievement, attitude and any concerns. We encourage parents to maintain close contact with personal tutors and our pastoral team to discuss any aspect of their child's progress with us. We also communicate by email or text with parents regarding urgent matters, such as unexpected absence or illness.

SPECIALIST CARE FOR INTERNATIONAL STUDENTS

“

Our philosophy is to ensure all our students are safe and well taken care of during their time with us, while being able to develop their independence and maturity.

”

HOW TO APPLY

STEP ONE:

**We are always ready to answer questions and to show you around our college.
There are two ways you can enquire or apply to join one of our Colleges:**

- ❶** Apply online or download our application form at www.abbeycolleges.co.uk and email it to: admissions@abbeydld.co.uk
- ❷** Get in touch with one of our experienced and professional agents

STEP TWO:

Application requirements:

- ☒ Evidence of academic history
- ☒ Evidence of English ability
- ☒ A copy of passport
- ☒ A completed application form
- ☒ Previous UK BRP or visa (if applicable)

STEP THREE:

Interview with a member of staff which can be in person or via Skype.

STEP FOUR:

If your interview is successful you will receive an offer letter.
