

## **Behaviour, Discipline and Exclusion Policy**

**Primary person responsible for updates to this policy: Senior Vice Principal (Pastoral)**

**Last review date: July 2025**

**Next review date: July 2026**

**Circulation:** This policy has been adopted by the governors and is available to parents on request. It is addressed to all members of staff and volunteers and applies wherever they are working with children. The term “staff” includes college employees, parents, Governors, volunteers and workers employed by contractors.

‘Parents’ refers to parents, guardians and carers.

At DLD we believe that students develop best if they feel part of a community, and the most effective way to achieve this is to create an atmosphere of mutual respect. In all our interactions with students it is the aim of every member of the College community to provide an environment in which each student feels safe, nurtured, recognised and affirmed, is assisted to grow to the fullness of their potential and to experience a feeling of belonging and connectedness to the whole community.

This links to our mission statement: Developing the next generation of Leaders to take their place in a challenging & Diverse world.

There are several aspects to pastoral care related to the individual, the community and the curriculum.

We encourage each student to become well integrated, develop a sense of responsibility, self-motivation and harness their capacity to make well-considered and ethical decisions with a concern for the community of which they are an integral part. In addition, we provide the opportunity for each student to develop a growing sense of identity, to feel the freedom to express themselves and to accept that there are many ways of functioning.

We endeavour to uphold and sustain practices that foster the values of:

- Mutual respect and responsibility;
- a commitment to co-operation, consideration, courtesy, care and
- engagement in service to the community.

These principles support the development of high-quality interpersonal relationships between teachers, students, parents and staff.

## **College Expectations**

Behaviour expectations in the college are in line with a student code of conduct which was created with input from the Student Council. The Student Code of Conduct is as follows;

The Student Code of Conduct reflects a concern for these values.

- All students and staff have the right to live, study, work and relax in an environment where their personal boundaries are respected.
- Students are expected to treat everyone with respect and dignity with whom they come in contact, whether within the college or outside
- Students are expected to behave and communicate in ways that do not unreasonably offend others
- Students should attend classes dressed in accordance to the principles of appropriate smart-casual dress outlined in the Student Dress Code Policy - the general appearance should not hinder the educational process. Dress that reflects cultural diversity is welcomed.
- You should treat school property, equipment and other materials and the property of others with care and respect. This involves not putting your feet up on the furniture.
- All students are expected to use recycling facilities where appropriate and encourage members of the school community to deposit litter at the bins provided. Students should accept responsibility to maintain sustainable environment
- Students should arrive prepared and punctually to classes, and show consideration for others by exercising non-disturbing behaviour during class

If a student fails to observe any aspect of the Code of Conduct or associated policies, the College's disciplinary procedures may be implemented (see reporting system and sanctions below).

## **Sexual Relationships between students**

### **Philosophy**

It is important to acknowledge that relationships are normal amongst teenagers in a co- educational environment; although the College does not believe it is in students' best interests for these relationships to be too intense or at the exclusion of other friendships. These guidelines are in place to ensure relationships are conducted in a discreet and appropriate manner.

The underlying principle in respect of students' relationships is one of trust and respect.

Sexual relations are discussed in PSHE and more informally with tutors, pastoral staff and Houseparents. The aim of these lessons is to develop an understanding of:

- The law in the UK
- The values of respect for self and respect for others
- The challenges of adolescence
- The physical and emotional benefits of good personal relationships
- The risks and consequences of early sexual experiences

### **The Law**

**The age of consent in England and Wales is 16.** This is the age when young people of any sex, gender or sexual orientation can legally consent to taking part in sexual activity. This means that sexual activity between two or more people is always unlawful if at least one of the people is under the age of 16.

### **College Rules**

Students of any age are not permitted sexual relationships whilst on College premises. Similarly, physical contact between students, such as hand holding and kissing, should be discrete and reflect the modesty and respectability of our College, including our boarding accommodation. At no time should any student or staff member be made to feel uncomfortable due to public displays of affection.

## Rewards

An ongoing culture of recognition and praise is actively embraced in the college. This helps to develop the friendly community atmosphere and is recognised as an important tool for encouraging our students to achieve academic excellence.

## EduLink

Staff will be using the EduLink system to award points, achievements and accolades to students. EduLink should be awarded to individual students for:

“Achievement or effort above and beyond ‘typical’ expectations for the individual student”

As a guideline, EduLink points can be awarded for the following (although this is not an exhaustive list):

- **Academic Achievement**
- **Community:** *A positive attitude and active role in the college community.*
- **Leadership:** *Leading and coming up with events, trips, concepts and ideas.*
- **Effort:** *Increased effort in a subject area or within the college community.*
- **Improvement:** *Overall improvement in behaviour, conduct, tardiness etc.*

Heads of Department, Housemaster/Housemistresses (HMs) and the Senior Vice Principal (Pastoral) are responsible for the tracking of EduLink awarded by individual staff members, and feedback should be delivered to staff members with regards the use of commendations if there are any concerns.

HMs are responsible for tracking individual student achievements through EduLink. Students who receive multiple EduLink receive the following milestones;

Number of EduLink	Reward Level	Staff member responsible	Reward
N/A	Level 1	Class Teacher / Member of staff	Verbal praise, Teacher gives EduLink
50 EduLink	Level 2	Tutor	Certificate
100 EduLink	Level 3	HM	Certificate
150 EduLink	Level 4	Assistant Principal	Certificate
200 EduLink	Level 5	Vice Principal	Certificate
250 EduLink	Level 6	Principal	Certificate Awarded in Assembly

## Weekly Assemblies

Weekly assemblies, led by the HM, are where attendance/punctuality, house points (EduLink) and house competitions are announced and celebrated. Teaching staff, support staff and SLT/ELT are actively encouraged to attend to share good news stories and join the celebratory feel created by these assemblies. Assemblies are also an opportunity to issue EduLink Certificates. Rewarding pupils for positive achievements is considered a vital component in developing a positive ethos within the college. All staff are strongly recommended to share positive information about the success of students in any aspect of school life. Likewise, teachers are encouraged to let parents know when their child has done something worthy of praise. Any such actions will take into account the GDPR and will comply with AbbeyDLD Colleges Limited’s privacy notice.

## **Classroom Management for incidents of low-level disruption**

All teachers collectively agreed to a set list of classroom non negotiables which all students should follow at an INSET in August 2024. The aim of this was to support each other in management of low-level classroom behavior and to set students up for good study practices. It was agreed that a consistent message from all teaching staff would support this aim. The non negotiables are listed below and displayed in every classroom:

- Arrive to lessons on time
- Come ready to learn with all materials needed for that class
- Ensure laptop of charged and social media pop-ups are switched off
- Phones one silent and out of sight. Headphones must also be removed and put away prior to entering the class
- No food or drink in the classroom (except water)
- Follow all teacher instructions, respect the environment and each other

If a student is engaging in low level disruption, is late for lesson or is failing to engage in work then teachers should initially use behaviour management techniques such as:

- Ask a direct question
- Change the activity to refocus attention
- Move into pair work or small group work where they will be forced to contribute
- Have a quiet word
- Do a mini-plenary with class – what are they learning? Is it working?
- What are they finding difficult? Feedback in pairs, on paper, to whole class – whatever appropriate
- Use rewards at an early stage – Make sure you praise good behaviour and think of ways to reward students to help them be motivated and engaged
- Get them to write key points or ideas on whiteboard

## Level 1 – Classroom Management: Behaviour Warning Levels

Teachers/Boarding Team are encouraged as far as possible to use Behaviour Management techniques (listed above) to manage behaviour, however **if the above has been exhausted, and a student persists in engaging in low-level disruption to the extent that the behaviour is having a negative impact** on others, then the staff member *may* give the students “behaviour warnings” up to a maximum of 3.

<b>Initial Behaviour Management strategies (classroom teacher)</b>	<ul style="list-style-type: none"> <li>• Ask a direct question</li> <li>• Change the activity to refocus attention</li> <li>• Move into pair work or small group work where they will be forced to contribute</li> <li>• Have a quiet word</li> <li>• Do a mini-plenary with class – what are they learning? SLT/HM will receive this e-mail. The first member of this team to read the e-mail replies to all to say they have received the e-mail and are on their way.</li> <li>• SLT/HM goes to classroom and collects student and takes them to their office. They will speak to the student about their behaviour and feed back to teacher at an appropriate time. They may also return the student to the (next) lesson, as appropriate</li> <li>• After the lesson, the class teacher sends e-mail to student’s Tutor, HM &amp; HOD with more information about the incident.</li> <li>• In most cases where student is removed, Tutor places student on Level 2 Tutor Report (see below) &amp; HM/SLT feeds back</li> </ul>

### Ongoing and Persistent Low-Level Disruption / Lack of work across many lessons

If a student will not engage in class, then class teachers or HOD should explore the possibility that the student engagement could be improved by effective differentiation. The teacher should consider;

- Looking at the SEND register to see if student has Additional Learning Needs which are not being met in the class.
- Sending an e-mail / having a conversation with Neurodiversity Department and/or HOD to discuss strategies.
- Making a formal referral to Learning Support if student is not on SEND register.

## Sanctions

The purpose of sanctions is to demonstrate that certain behaviours are not acceptable; to reinforce the difference between right and wrong; to deter other students from similar behaviour. It is hoped that students who have received a college sanction will be genuinely sorry for their behaviour and ensure that there is no repetition. Any punishment will be hierarchical and match the severity of the behaviour with consideration where possible of the student's previous record. See sanctions' tables on the following pages.

These sanctions try to ensure fairness by:

- Ensuring that sanctions are clearly defined
- Investigated fairly and thoroughly, listening to all sides
- Ensuring that students are clear as to why sanctions are being applied
- Avoiding bias and prejudgment to consider what is reasonable and proportionate
- Taking advice where necessary; consulting with colleagues
- Communicating with parents
- Keeping records

The college rejects the use of corporal punishment as a sanction. A weekly list of rewards and sanctions will be shared with HMs, HoDs and Houseparents, to allow them to follow up on student patterns and, where appropriate, inconsistencies in allocation by teaching staff.

### Report System & Behaviour Levels

The behavioural sanctions system at DLD is based around a report system through which students have the opportunity to demonstrate improvement at each behaviour level, and through which staff are able to monitor improvement or deterioration of behaviour.

## The Student Code of Conduct

As members of DLD College, we expect the highest standards of behaviour from our students. The Student Code of Conduct sets out the standards of conduct expected of students. All members of this community are advised to conduct themselves in a manner that promotes respect, civility, diversity and opportunity and inclusiveness, in order to guarantee the success of both the individual and the community. DLD College is a community of students, staff, and faculty involved in learning, teaching and other activities. Our College Ethos is ***"To provide a safe and stimulating learning environment, which maximises individual potential and ensures every student is well equipped to meet future challenges."*** The Student Code of Conduct reflects a concern for these values.

- All students and staff have the right to live, study, work and relax in an environment where their personal boundaries are respected.
- Students are expected to treat everyone with respect and dignity with whom they come in contact, whether within the college or outside
- Students are expected to behave and communicate in ways that do not unreasonably offend others
- Students should attend classes dressed in accordance to the principles of appropriate smart-causal dress outlined in the Student Dress Code Policy - the general appearance should not hinder the educational process. Dress that reflects cultural diversity is welcomed.
- You should treat school property, equipment and other materials and the property of others with care and respect. This involves putting your feet up on the furniture.
- All students are expected to use recycling facilities where appropriate and encourage members of the school community to deposit litter at the bins provided. Students should accept responsibility to maintain sustainable environment
- Students should arrive prepared and punctually to classes, and show consideration for others by exercising non-disturbing behaviour during class

## **Student Dress Code Policy**

### Introduction

DLD College London is an independent educational institution with high aspirations for its students. It is important that all DLD students project a positive image both within and outside the College. It is recognised that students within the College have a diverse range of personalities and preferences and our dress code takes this into account. This policy applies to all Day and Boarding students irrespective of their gender identification.

### Rationale & Expectations

- All students must dress in a manner which is consistent with the DLD ethos;
- The image of the College in the community is related to how all DLD students dress;
- All students must actively avoid giving offence to people of different cultures or beliefs and this is particularly important in a College with a diverse student intake.

This Policy provides:

### Guidance to new students;

- A benchmark against which the standards of all students can be measured
- A framework to inform decisions on standards taken by individuals

The following are not considered suitable attire for students at the College:

- Leggings (unless fully opaque - dark/solid coloured, not transparent)
- Offensive slogans in any language
- Nightwear (e.g. pyjamas)
- Hoods worn over the head in college
- Hats in class
- Students should avoid wearing excessively expensive items of clothing or accessories
- Revealing clothing, examples:
  - Tops/blouses that are transparent (see through)
  - Tops that reveal underwear.
  - Corset style, bralette or lingerie style tops.
  - Crops tops that expose belly button/midriff.
  - Hot pants.
  - Skirts/trousers that reveal underwear.

The points above are at the discretion of the College Principal

## **Detention and Intervention**

When students fail to meet expectations and/or attend lessons on time then staff can place students in detention sessions at the end of the day (Monday-Thursday between 5.00pm and 6.00pm in room 1.02) with the intention of reflecting on their behaviour or fulfilling additional work. An Assistant Principal detention takes place on a Friday (5.00pm-6.00pm) for those students who miss two detentions with no valid reason.

The following are typical reasons why a detention may be issued:

- Repeated failure to submit set work by the deadline given by the teacher
- Level 1 attendance or punctuality warning issued
- Low-level behaviour around College or in class

If a teacher places a student into a detention, they will inform them and add the demerit to EduLink.. If a teacher wants to place a student in a detention and this is prior to 12.00pm the detention can occur the same day, if 12.00pm or after then the detention will take place the following day or on Monday, if after 12.00pm on a Thursday.

At times, a teacher may decide an intervention is better than a detention; here, support is available to help students to improve their work and ensure they are keeping up with e.g. deadlines.
