

Abbey DLD Group

Cookies Policy

What are cookies?

Cookies are small text files that are placed on your devices when you visit our website via internet browsers. Our use of cookies is to primarily help enhance your user experience and improve the efficiency of our website.

What cookies do we use?

Essential cookies – These make our websites work and provide the basic functions of the website.

Performance cookies – Performance cookies also allow us to see if there are any technical issues on our websites and if you are experiencing any issues using our websites. We use

Analytics cookies to help us understand how you use our services. They also allow us to look at usage statistics and performance.

Targeting cookies – We use these types of cookies and similar technologies to provide adverts that we think may be more relevant to your interests. This can be based on your browsing activity and is known as Online Behavioural Advertising or OBA. Cookies are placed on your browser, which remembers what websites you've been to. Advertising based on what you have been viewing is then displayed.

Types of cookies

If the cookie comes from our site it is a first party cookie. If it comes from another site, such as our marketing services or ad technology providers or business partners, it is a third-party cookie, specifically chosen by us to provide a service, such as a more personalised visit for example from our website service providers, advertising partners and social media service providers.

How long do cookies last?

Different cookies can last for different lengths of time.

- Persistent cookies consist of a text file sent by a web server to a web browser, which will be stored by the browser and will remain valid until its set expiry date (unless deleted by the

user before the expiry date). Persistent or tracking cookies are employed to store user preferences and allow us to customise how we present information through site layouts or themes.

- Session cookies are used by the server to store information about user page activities only during a session and will expire when the web browser is closed.

The table below explains what cookies we use on our websites and why. These websites include:

- Abbey DLD Group of Colleges
- Abbey College Cambridge
- DLD College London
- Abbey College Manchester

Table of cookies we use and reasons why:
